

Your Regimes are No Different From Regimes Occupied Muslim Land

News:

Inflation rate highest since Great Recession ([Tribune Pakistan](#))

Comment:

Citizens of PAKISTAN are facing number of severe challenges that have been left unaddressed for far too long. The impact of these development challenges started becoming visible in linear increments in the 1990s, but now their impact is agglomerating.

The common people, however, do not need these figures to understand the painful impact of the unaffordable cost of living. Numbers cannot capture or reflect the helplessness felt by people from low- and lower-middle-income households when they purchase groceries, buy fuel, and pay their electricity, health and education bills.

Those in power, however, appear utterly ignorant of the effect that their policies is having on the common man, while they continue to enjoy all the perks and privileges that their offices bestow on them.

While taking the easy route of blaming their predecessors for the economic mess, the government forgets that it too was in power not too long ago.

Majority of these issues that people are facing are basic rights of every citizen which the current system is unable to provide rather producing a batteries of such incapable and corrupted leadership who led us to the grave situation we are in. We all need to understand, every guardian of this rotten Capitalist democratic system is an oppressor and is no different to the rulers who are responsible for oppression in Palestine, Kashmir, Syria, etc.

We are living in extremely oppressive situation, Muslims in occupied lands are forced to leave their homes, curb to practice Islam, severe physical torture and in your so-called non-occupied land you have been forced to pay record petrol, electricity and gas prices in addition to an increase in your tax burden in the budget your colonialist regimes are squeezing last drop of your blood to feed their masters i.e. West! You are forced to reprioritise your expenses from health and education to meet essential food needs which also are getting out of your pocket reach.

This will not change until we change things around us. The only way to come out of this situation is to uproot the capitalist system and need to work our heart out as Muslims in occupied land working tirelessly to get rid of oppressive regimes and re-establish the Khilafah which is the only solution to the misery of humankind.
