

## Since the Ummah Could Not Protect the Khilafah, the Usurping Jewish Entity Became a Dagger in the Heart of the Ummah

### News:

While US President Biden said: "If there were no "Israel", we'd have to invent one", the President of the usurping Jewish entity Herzog says that they are fighting in order to save and protect the Western civilization.

### Comment:

Al-Quds and Palestine, which were conquered during the time of 'Umar (ra), were occupied by the Crusaders in a period when the Muslims had internal problems, their political unity disintegrated and were weakened by being divided into two caliphates. In this way, they were off the Muslims' hands.

-As a result of the Muslims solving their internal problems, uniting the two caliphates in a single caliphate and uniting their political unity, Al-Quds was conquered by Salahuddin Ayyubi and reconquered by the Muslims.

-With the weakening of the Ottoman Caliphate and its disintegration by the British and the disintegration of the political unity of the Muslims as a result of the Ummah's inability to protect the Khilafah (Caliphate) and its weakening due to internal problems, Al-Quds and Palestine were occupied first by the British and then by the Jews.

The occupation of Palestine by the Jewish entity is a dagger stabbed into the heart of Muslims, first by the British and then by the imperialist kafir Western world, especially America.

The words of US President Joe Biden after the major blow dealt by Muslim fighters to the Jewish entity on 7 October, "If there was no "Israel", we would have had to invent one", and the words of the President of the usurping Jewish entity, Herzog, that they are fighting to save and protect the Western civilization, confirm that the Jewish entity is a dagger stabbed into the heart of the Muslims by the imperialist kafir West.

The Arab regimes in the region and the rulers of the Muslim countries are daggers stabbed into the back of the Muslims by the imperialist kafir West, controlled by the imperialist West, who, instead of protecting Palestine, are tasked with protecting the usurping Jewish entity and preventing and stopping the Muslim peoples.

The real enemy for the Muslim peoples is the imperialist kafir West. America and Europe. The Jewish entity "Israel" and the Arab regimes and the rulers of other Muslim countries are only means used by the imperialist kafir West in their war against the Muslims.

Muslims will not be able to develop and save Palestine until they get rid of these regimes and rulers who do not represent them, who condemn them to backwardness, weakness and derogation, who protect the usurping Jewish entity, who support its life and survival, and who are controlled by the imperialist kafir West.

Muslims will not be able to develop and save Palestine until they establish a Khilafah Rashidah (rightly guided Caliphate) upon the method of the Prophethood that will solve their internal problems that weaken them, unite their dispersed and fragmented political unity and make them strong.

If the Muslims can establish a Khilafah Rashidah with the help and grace of Allah Azza wa Jalla, then they will be able to get rid of the regimes and rulers of the Muslim countries which are the dagger in their back stabbed by the imperialist kafir West, and the usurping Jewish entity which is the dagger in their heart stabbed by the imperialist kafir West, and they will be able to face their real enemy, the imperialist West.

It is this confrontation that the imperialist kafir West, the enemy of Islam and Muslims, fears and sees as a deadly threat to itself. It is the confrontation of the Muslims with a Rashid Khalifah against the imperialist kafir West by getting rid of the daggers that stop them and prevent them from taking action.

Therefore, it should be the primary goal and objective of all Muslims to work for the re-establishment of a Khilafah Rashidah, promised and commanded by Allah and His Messenger, which will destroy the world order dominated by the imperialist kafir West.
