

Netanyahu Continues to Humiliate America

News:

US Secretary of State Antony Blinken visited the usurping Jewish presence first, then Egypt and Qatar in connection with the ceasefire negotiations mediated by the US, Egypt and Qatar in the Qatari capital Doha on August 15-16.

Comment:

After a meeting with Blinken on August 20, Prime Minister Netanyahu of the usurping Jewish entity announced that they would not withdraw from the Gaza-Egypt border, Blinken, responding to this from Qatar, denied Netanyahu, stating that the Jewish entity's withdrawal schedule was set in the agreement and the Jewish entity accepted it.

The prime minister's office of the Jewish presence denied Blinken, saying that the reports that Prime Minister Netanyahu had agreed to withdraw from the Philadelphia Corridor did not reflect the truth.

Blinken has visited the Jewish presence 11 times since the Al-Aqsa Flood began. While Blinken's first visits were visits of support for the Jewish presence, his recent visits were more about convincing Netanyahu to a ceasefire and ending the war.

America is practically begging Netanyahu to put an end to the genocide, massacres and crimes against humanity created by the bombs and weapons it provides to the Jewish existence, which raise all Muslims and humanity, and to make a ceasefire.

Whenever America tries to break a deal by bringing the parties to the table, Netanyahu constantly makes moves to break up the table.

There is actually nothing surprising about what is happening right now. We can easily say that Netanyahu does not see any benefit or benefit for himself in reaching an agreement before the US presidential elections.

For example, it is in Netanyahu's interest for Iran, which was forced to respond after the assassination of Ismail Haniyeh in Tehran, to respond.

In such a situation, Netanyahu knows that America will have to support him. In fact, by trying to expand and regionalize the war, this is actually what lies behind the effort to start a regional war in which America will actually be involved. This is the reason why American President Biden is also trying to put pressure on Hamas and Iran.

Because while there are no supporters of Hamas in America these days, as the presidential elections are approaching, Netanyahu has real and effective supporters.

Netanyahu is aware of this. With Gaza destroyed, it is not enough for Netanyahu, who has not yet lost control over the direction in which the war will progress, to make concessions or accept a ceasefire to stay in power. Netanyahu has no intention of reaching an agreement that will force him to make concessions and compromise, which will make it almost impossible for him to stay in power. It is also a well-known fact that Netanyahu wants to make such a deal not with Biden, whose term will end soon, but with the winner of the November presidential elections, the new owner of the White House.

For his own interests, Netanyahu will frustrate America's ceasefire efforts and continue to humiliate America until the presidential elections are concluded in America. The superpower and leader of the world, the boss of the new world order, America, was unable to direct Netanyahu, its inability to let him obey the instructions, will cost it its(America's) world leadership.
