

Your Democracy Discipleship Consumed the Ummah!

News:

In an interview with the Saudi Arabia-based Al Hades channel, Foreign Minister Hakan Fidan stated that Türkiye wants a civilian and democratic state to be built in Syria and said, "That is exactly what we want, we want both a civilian and democratic state. Of course, Syria got rid of Bashar al-Assad, but there may be some problems and problem areas in the new period. We, as the countries of the region, need to help the new government in Damascus to resolve this issue. (Agencies, 16.12.2024)

Comment:

The US, the flagbearer of the capitalist ideology of exploitation, is known to be under every stone we lift in our geography. So much so that in every fitnah, chaos, destruction and massacre, there is always direct or at best indirect involvement. Especially its political influence and economy, it is through its agents in the countries of the region unfortunately the source of every problem and the actor of every plan put forward under the name of solution.

14 years ago, millions of Muslims took to the streets in Syria to voice their demands for the overthrow of the regime with all its elements and its replacement with solutions based on the rule of Islam. During this time, America, which punished the Muslims who voiced these demands with dictatorial agent rulers and imported killers, made way for massacres and atrocities unprecedented in history. Everyone, from paramilitary organizations, to savage states, to jackal rulers in sheep's clothing, who were put on the field to suppress the just and legitimate demands of the Syrian Muslim people, served the capitalist exploitation ideology in a single chorus.

Would Türkiye, which until yesterday extended the hand of friendship to Assad again, be ashamed of the hand of friendship extended with the shameful images that emerged in Sednaya Prison? Yes, in the first years of the revolution, Türkiye, Qatar and Saudi Arabia, which intervened on behalf of the US on the eve of overthrowing Assad, not only diverted the revolution from its trajectory but also dissipated its energy.

The disbelievers, who have studied sociology and human psychology very well, made Assad, the murderer of Muslims who have been slaughtered, persecuted, tortured, imprisoned and exiled for more than ten years, leave the country. While this is a joy for Muslims, it is of course more important to keep the spirit and goal of the revolution as it was on the first day. We should ask Mr. Hakan Fidan, who has been marketing democracy for years both in Türkiye and in different parts of the Islamic geography, especially President Erdogan and his aides, who today openly declare that he desires democracy in Syria, for which hundreds of thousands of martyrs have been martyred, whether all these sacrifices were for the rotten democracy? Was it not enough that the sons of the Ummah were sacrificed in the name of democracy?

Yes, you attributed the resistance of the Muslims who shielded their lives with takbirs and salawat during the July 15 coup attempt to the protection of the rotten democracy, without fearing Allah at all. Is it not in the name of democracy that the Western disbelievers, especially the US, have caused the massacre of millions of Muslims in this geography for a century? For 14 years, while genocide has been committed in Syria, have the democratic countries of the world not stood by and watched these massacres in the name of democracy? Have they not and still do not support this murderous dictator Assad? Is it not the democratic countries of the US and Europe, which you see as friends and allies, who have been protecting this savage while the disbeliever Jewish entity has been tearing the sons of the Ummah like a rabid dog in Gaza for 14 months?

Today, the worst word to be inculcated in the Syrian people is democracy. The most impure thought is the democratic rule. The lowest and most disgraceful aspiration is democracy that shows the presence of capitalism in the government, which is far from the beliefs and values of Muslims. And this thought is as dirty and illegitimate as the Sednaya Prison. The system of Allah is sufficient for those who understand.
