

New Basic Law enacted by the Jewish entity: 'Nation-State of the Jewish People' More Power to Commit Crimes against the People of Palestine

News:

Knesset members [approved overnight Wednesday-Thursday](#) a controversial and long-debated law that officially defines 'Israel' as the Jewish nation-state, voting the bill through in its second and third plenary readings by 62-55, with two abstentions.

The law for the first time enshrines Israel as "the national home of the Jewish people." The law becomes one of the so-called Basic Laws, which, like a constitution, guide Israel's legal system and are usually more difficult to repeal than regular laws. ([timesofisrael](#))

"This is a defining moment in the annals of Zionism and the annals of the state of Israel," Mr. Netanyahu said after the bill was enacted... "We have determined in law the founding principle of our existence," he said. "Israel is the nation-state of the Jewish people..." The new law promotes the development of Jewish communities, possibly aiding those who would seek to advance discriminatory land-allocation policies. ([nytimes](#))

Comment:

The newly ratified Basic Law of the criminal usurping Jewish entity gives more authority to the criminal policies against the people of Palestine and their lands. Just as the rulers of the neighboring Muslim lands are falling over one another in racing to normalize relations with the criminal Jewish entity and promote so-called "peace initiatives" with the usurping entity, the Knesset with the full force of Netanyahu pushing to gather and protect his Jewish people on the Blessed Land of Palestine. This will surely impact the people of Palestine in the usurped 1948 and the 1967 lands and lead to suffocation of the people of Palestine living there, with the entity taking their strength from the new Basic Law or aptly described as the Racist or Apartheid law to try to force out the people of Palestine from their beloved lands who are known for remaining resolute in the faces of the Jewish entity's forces and did not abandon their homelands during their raids. Now the Jewish entity officially exposed their racist and violent methods and ideas trampling over any claims of "justice or humanitarian" ideals, seeing it fit to view others as second-class or their ruthless attacks against the people of Palestine and all that they hold sacred.

This new law also allows for the illegal expansion of the Jewish settlements in the West Bank lands again in the true style of the land grabs, with the people of Palestine having no protection or justice due to the paralyzed agent-rulers of the Muslim lands who do not summon their powerful armies to liberate all of Palestine from their occupation. With the farce of the shameless Palestinian Authority who did not rant or object to this hideous action, silently waiting to see the consequences on the people of Palestine.

Allowing Netanyahu to escalate the crimes of the Jewish entity against the people of Palestine all in the name of the "*nation-state of the Jewish people*" giving their crimes legitimacy is supposed to set off the loudest alarm to the Muslim armies. How can they remain silent when this will only escalate the criminal entity's crimes even more than they are now? From the attacks and strikes against Gaza and the snipers' shootings of the innocents of Palestine to the arson of the olive trees and the lands to the illicit arrests and torture of children and women! What more is needed to ensue action?!
