Ironic stance?! The secular president appointed by John Kerry addresses the defense of Islamic Civilization in purpose of fighting better against Islam

(Translated)

On Monday 04 April 2016, the Afghan president was making a speech on a meeting of Coordination Board and Joint Supervision before the delegates of International Organization and donors of Afghanistan stated, "The terrorist groups do not recognize any frontier and are tending to destroy the Islamic Civilization." He also added, "...they [the terrorist groups] intend to snatch our Civilization; and a small minority dauntlessly talks on the behalf of 1.6 billion Muslims. Yet most of us remained silent against them; we have to defend this [Islam] Civilization."

The secular president appointed by John Kerry on the 50% portion of government along with his wife and family members whom apparently do not practice Islam must never dare to talk bravely against Islamic groups by observing only the imprecise acts of some groups and the fatwas of mostly court Ulema.

Therefore, the **Media Office of Hizb ut Tahrir / Wilayah Afghanistan** condemns the strange speech of Afghan president in the strongest terms. He has a secular personality, applies Democracy or man-made law in preference to Islam, and furthers the American crusade against Muslims on Islamic territories under the pretext of terrorism. He relegates the Muslim women on the target of secular programs by assistance of his spouse and leads the illegitimate economic law or interest (*sood*) at banks, and spares no strategies and policies of secular invaders in the country. It is extremely shameful just for the satisfaction of his lords, that he betrays the Muslim people of Afghanistan and talks audaciously over Islamic groups.

Subsequently, the Islamic Civilization is the result of implementation of Islam for over 13 centuries under the umbrella of Caliphate and not by secularizing it. Pagan, tyrant or secular governments have no right of talking about Islamic Civilization, as if they are its protectors. Indeed, such tyrant governments and oppressive rulers, who are all seculars, stopped the implementation of Islam in every sphere of life and caused overall adversities to Islamic Ummah; those who claim democracy are even worse. They are hyenas under sheep's wool. The only solution to these dilemmas is to change the current systems and to reestablish the Khilafah (Caliphate) through the method of Prophet Mohammad (pbuh).
