

Press Release

The German Interior Minister Doesn't Know Her Country's History!

(Translated)

It is one of the strangest of things, and a great irony, that a minister in a country that was great for a long time does not know the history of her country, to express her feelings of astonishment and anger at the manifestations of celebration of the launching of missiles on the Jewish entity.

The German government and its ministers forgot how they treated the Jews before World War II; they prevented their doctors from treating Aryans by September 1938. In August 1938, the German authorities issued that by January 1, 1939, every Jewish man and woman who did not have a Jewish name must add the name 'Israel' or 'Sara' to their names, to distinguish them from the rest of the people.

The German government and its ministers forgot their alliance with the Muslims, as they signed an alliance agreement with the Ottoman Caliphate (Uthmani Khilafah) on August 2, 1914, in addition to Germany's trade and economic relations with it.

Although the percentage of Jews in Germany is less than twenty times the percentage of Muslims, German policy is following the path of oppression against Muslims, issuing statements hostile to Islam and Muslims, and statements supporting the Jewish entity that usurped the Muslim's land, Palestine!

It seems that the aforementioned minister is adding political ignorance to her historical ignorance, as she may not know the truth about the Iranian regime and its orbit around America, and she does not know that it does not pose a threat to the Jewish entity as much as it poses to Europe, including Germany. She may not know that America is using the Iranian nuclear file as a pretext against Europe and its companies.

The minister's latest statement expresses the deep terror that filled the hearts of Western leaders after October 7th, 2023 and the events that followed. Since the Jewish entity was exposed to an existential threat, and it carried a message to Western leaders that your dominance in the world and in Muslim countries is not eternal, and the time for this dominance to end is near. The minister expressed her inner feelings regarding what she saw of Muslims celebrating the launch of Iranian missiles - even if empty - at the Jewish entity, so what if these missiles were real, and filled with explosives that cause great destruction to the facilities of the Jewish entity?

The German government and its ministers should have thought about their country; and seen that after they were a great country, they have become led by America, just as the agent rulers of the world are led by America. They should remember that America led them to war against the Muslims in Iraq in 1991, and led them to war against the Muslims in Afghanistan in 2001, then America withdrew from both countries. When it withdrew from Afghanistan in 2021, it did not inform its allies of that in advance!

Today, Germany, through its Minister of Interior, expresses its astonishment and anger. We say to her and to the German government behind her: Muslims will not forget this statement by Germany, nor will they forget its participation in fighting Muslims more than once - just as that minister forgot the history of her country - and the Khilafah (Caliphate) State is just around the corner, Allah willing, and then the Muslims will hold you accountable for all your positions against them, your oppression of them in your country, and your hostile statements towards them. Then you will not have time to express anger or astonishment, and you will regret it, but there will be no time for regret.
