

Press Release

The Egyptian Regime's Conspiracy is not New

Will it Succeed in what the Jews Failed to Accomplish Despite the Support of all Western Powers?

(Translated)

Trump tightens the noose on Egypt regarding his desire to displace the people of the Gaza Strip (Al Jazeera, 1/28/2025). Despite the declared rejection from the Egyptian regime, Trump is still pushing for this plan. He stated that he will ask the Egyptian president what he asked of the Jordanian King Abdullah II, which is to allow one to one and a half million people from the Gaza Strip to enter Egypt. He stressed that Sisi is his friend, saying, "I helped him a lot and I hope he will help us. I believe he will do that and the King of Jordan will do that as well."

Trump's statements suggest a lot and are understood more from behind them, as he does not hide his goals but says them explicitly and adopts the interests of the Jews explicitly, as he sees that their entity is small and does not have the elements of survival as if he is planning to expand it, after ensuring full normalization to give the Jewish state what qualifies it to survive and gives it the ability to live and give its existence a kind of stability, according to what appears to be Trump's goal in the next stage, and he knows very well that his desires are non-negotiable orders for the rulers of our countries who have no choice but to accept what he dictates to them in a dependency that has reached its limit and submission that has exceeded the point of prostration, and we said previously at the beginning of the events that if America requested displacement, the Egyptian regime cannot refuse and does not have the luxury of choice, and its previous refusal was because the order was not explicitly requested or perhaps there were other plans before announcing approval, such as the massacres committed against the people of Gaza and the demolition of the infrastructure, forcing people to voluntarily leave the stripe, which became clear through the demolition and killing of the people of Gaza and the tons of explosives dropped on them that are almost greater than what was dropped in World War II, and the people of Gaza thwarted all of this with their patience and steadfastness, despite the failure of the governments and armies of the Ummah, as some of these armies are capable of uprooting the usurping entity, and the conspiracy of the Egyptian regime that has tightened its siege on Gaza and its people for years, but this did not satiate America's thirst for Muslim blood until it cornered those regimes, with the desire to displace the people of Palestine and expand the usurping entity, and the regimes that fear the integration of the people of Palestine with their people and the convergence of their feelings. If displacement is necessary, why do not the cursed ones return to their wandering again, or even return to their original countries from which they came and whose nationalities they still retain; this is easier and cheaper for America than displacing the people of Palestine, which the Jews failed to do and were unable to impose on the people of the Blessed Land, therefore, resorting to the countries that are now between the two millstones, as the master's desires must be implemented and what he demands puts them on the edge of the abyss if it does not throw them into it, which prompted them to make statements like those reported by the Jerusalem Post from sources: "Egypt and Jordan informed people close to Trump that implementing his plan to displace Palestinians could harm normalization efforts," and that they fear that Trump's plan to displace Palestinians would affect the stability of the two countries.

The Egyptian president's statement during a press conference with his Kenyan counterpart, "What should I say to the Egyptian public?" He continued, "Displacement threatens our national security," adding and addressing the gentlemen, "The Egyptian people will all go out to the streets to say no" (Masrawy 1/29/2025), to show the regime's concern about the people of Palestine and what might be transferred with them to the people of Egypt. It fears what might change the nature of

the people and what might stir up in them, especially the spirit of resistance inherent in them, in clear fear of the peoples' awakening to the extent of the rulers' betrayal and the extent of their prostration. They have not reached the level of the ruler of Colombia, who responded to Trump's arrogance by boasting about his history of belonging to the Caliphate of Cordoba, "Our blood comes from the Caliphate of Cordoba, which was at the time a symbol of civilization," which our rulers are ashamed to mention, as they have become accustomed to betrayal and living in humiliation.

The regime's position is known as a faithful guardian of the usurping entity. It has not and will not attempt to uproot it despite its ability to do so. If the regime did not fear the influence of the people of Gaza on its existence and their influence on the Ummah and the movement that their presence might bring about that would overthrow it, it would not have waited to be asked to displace them and would have rushed to receive them itself. If they asked it for more than that, it would have done so. However, it is on the edge of a volcano and fears that the people of Gaza will be the spark that ignites it and overthrow it and its tattered throne.

The astonishment is in the position of those who remain silent about the humiliation and betrayal of the regime, which the media filter can no longer hide. When will we see someone who will be angry for the sake of Allah and overthrow this servitude regime, end its decades of prostration, take the side of the Ummah and carry its issues and concerns, and raise the banner of the Messenger of Allah, peace and blessings be upon him, with its right and reward from Allah? Is there no rational man who will say, "I am for it," and gather his peers around him and say to them, "O brave soldiers, O descendants of the conquerors and subduers of the Tatars and Crusaders, where are you against the Tatars of this era and the bearers of their Crusader war against Islam and its people?" O descendants of the conquerors, where are you in supporting your Ummah? Where are you in implementing Islam and returning its authority and state to the earth? Where are you against the West's encroachment, hegemony, imposition of its systems and laws upon you, and enslaving you and your families, and even enslaving the entire Ummah? Who is for Islam if not you? And who will support it other than you?

O soldiers of the Kinana: Your duty is to declare a comprehensive war on the usurping entity until the liberation of all of Palestine and the restoration of the usurped authority of the Ummah. We know for certain that this is what every member of the Kinana army desires and what is going on in his mind, and nothing prevents its achievement except the mercenary regime that rules Egypt and controls its army, making it a guard for the usurping entity, which is entrusted with it and obligated to uproot it. Therefore, your duty first is to uproot this regime from its roots with all its tools and implementers, and to completely liberate it from dependence on the West in all its forms and manifestations, and to hand over the rule of the country to a conscious political leadership that carries the project of Islam and is capable of implementing it immediately in its state. Among you are your brothers, the members of Hizb ut Tahrir, a conscious political leadership from the nation's kind that is aware of its issues and bears its concerns and strives with you to attain the pleasure of Allah the Almighty by implementing His law and religion and carrying to the world a message that brings people out of the darkness of capitalism and its greed to the justice, glory and authority of Islam anew, under the shade of Islam and its state, the Rightly-Guided Caliphate on the method of the Prophethood.

﴿وَلْيَنْصُرَنَّ اللَّهُ مَن يَنْصُرُهُ إِنَّ اللَّهَ لَقَوِيٌّ عَزِيزٌ * الَّذِينَ إِن مَكَّنَّاهُمْ فِي الْأَرْضِ أَقَامُوا الصَّلَاةَ وَآتَوُا الزَّكَاةَ وَأَمَرُوا بِالْمَعْرُوفِ وَنَهَوْا عَنِ الْمُنْكَرِ وَلِلَّهِ عَاقِبَةُ الْأُمُورِ﴾

“Allah will certainly help those who stand up for Him. Allah is truly All-Powerful, Almighty. They are those who, if established in the land by Us, would perform prayer, pay alms-tax, encourage what is good, and forbid what is evil. And with Allah rests the outcome of all affairs.” (Al-Haj:41)
