Campaign “Beware of the Turkish-American Alliance”

(Translated)

Looking at the conditions that the Ash-Sham revolution is passing through and the severity of the Kafir West conspiring against it and the plurality of roles played by the states which the American administration directs into motion. So there are those who play the role of supporting the criminal regime utilising all available means and styles; political and military, in order to prevent its collapse. This is whilst there are others who play the role of being a friend to the Syrian revolution through lies and deceit. This is for the purpose of containing the revolution; politically via the bringing about of a political alternative and manufacturing what they call the Political representative of the revolution and militarily by directing the battles in a direct and indirect manner and this is in order to divert the revolution from its intended destination.

However the danger posed by those states that claim to be in support of the Syrian revolution, whilst plotting against it, is greater than the danger of those states that declare their hostility towards it. This is visible as here we have the Turkish regime openly declaring its alliance with America. So it opened up its Incirlik Base to become a launch pad for American planes to kill the people of ash-Sham and demolish their houses upon their heads... It was obligatory upon the Turkish regime to ally themselves with the sincere revolutionaries to bring down the regime of the tyrant of ash-Sham and not to ally themselves with the enemies of Islam and the Muslims to kill the people of ash-Sham!

Due to this we announce the launching of a campaign under the heading: “**Beware of the Turkish-American Alliance**” and this is in order to expose the dirty role that the Turkish regime is playing against the revolution of ash-Sham whilst calling it the giving of support and it is so that the revolutionaries do not fall into the grip of the Turkish intelligence agencies so as to be transformed into tools that proceed in accordance to their will.

Allah Almighty said:

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا خُذُوا حِذْرَكُمْ﴾

“O you who believe! Take your precautions” [an-Nisa’: 71]
