

Press Release

**Do not Rely on the United Nations and Resumption of Negotiations,
It Embodies the Conflict and Sustains the Crises**

(Translated)

The Yemeni government announced that it had informed the United Nations of its agreement to engage in negotiations with the Houthi group and its ally the former President Ali Abdullah Salih, according to SABA news agency. The agency quoted the government spokesman, Rajeh Badi, as saying that the government responded positively to the invitation of the Secretary-General of the United Nation Ban Ki-moon to hold a new round of consultations with representatives of the Houthis and Salih to end the war in the country. Badi said that the consultations will be held "to the implementation of the Security Council Resolution 2216," which calls for Houthis withdrawal from the cities and abandon the weapons seized from the army. He added, "The government extends its hand for peace and the establishment of security and stability in Yemen," and added, "We are dedicated to the success of the UN efforts to resume the political process in Yemen."

The UN envoy to Yemen, Ismail Ould Ash-Sheikh has announced the start of a new round of talks between Yemeni parties by the end of the current October month. Ould Ash-Sheikh said in a brief statement on his official Facebook account: "There is a glimmer of hope that looms on the horizon on the situation in Yemen, there has been a culmination in efforts to convince all Yemeni parties to hold a new round of talks and dialogue under the sponsorship of the United Nations in Geneva at the end of this month." He added "the United Nations while thanking everyone, it is calling for more flexibility, perhaps opportunities after now may not be reachable."

The hope that the United Nations and its envoy Ould Ash-Sheikh promises the people of Yemen and the return of talks between the conflicting parties is not only throwing dust in the eyes of its people to deceive them again, and to drag its conflicting parties to its corridors and decisions that favors one party over the other. The people of Yemen saw how the United Nations is only interested in the rescue of those who achieve its interests, especially now that America is dominating it and seeks to save face for the Houthis and the separatist "Al-Hirak" movement, its basis of force in Yemen against the pro-British party represented by Hadi and his government and supporters. Hadi confessed to the role of British intelligence in smuggling him out of the grip of Houthis, at a time when the Houthis accused Britain of wanting to return to the South through the UAE forgetting that British influence is pervasive in all of Yemen.

O people of Yemen: The United Nations is not concerned about you or your blood. Here is the blood of Muslims spilled in Syria, in which Russia intervened directly at the behest of America and before the eyes of the United Nations to kill the people of Syria and make them succumb to accept the political solution that America, the head of criminality and arrogance, wants. And here is the blood of Muslims spilled

in Palestine at the hands of the Jewish usurpers in full view of the United Nations, which supported the Jews and recognized their usurper entity to the land of Muslims, which will be wiped out soon from existence, Allah willing.

O people of Yemen: your pure blood is still being shed despite the talks between the parties of the conflict in Geneva 1 and Geneva 2. Thus the parties in the international conflict and their followers are not interested in stopping the war as much as they are concerned to negotiate to share the power and wealth in your country. The war continues so that each party tries to gain control over the largest share on the ground, so it may be used to put pressure to achieve the treacherous negotiations. The United Nations' solutions will only serve the interests of America, and act as sedatives which carries with it the embodiment of the crises and its explosion. Even if the war is stopped for a while, it has the potential to ignite at any time as long as the roots of the crisis are not addressed with the correct solution, and the right solution is not by dependency on the oppressors and their evil and inhumane laws, but the right solution can be determined by returning to the Deen and referring to it, and by renouncing those who insist upon the destruction of what is left of the civilians and the country for immediate selfish interests that serves the Kafir West and its colonial plans.

It is clear to you, O people of Yemen that the parties of the conflict do not respond to your demand calling to stop the bloodshed and the grave strife, and to be ruled by the laws of Allah, the Lord of the heavens and the earth, and not to manipulate your provision and to provide the basic necessities from fuel, electricity, gas, and medicine; but instead they prevented you even from water, and polluted the air. One with such caliber will not look after your affairs well or feel your pain and suffering, but these parties did not care after those who fought with them and sided with them. How many dead and how many wounded and how many orphans and how many bereaved and how many poor, hungry and displaced in the open? Meanwhile the parties of the conflict feed under their name and live on their wounds and pain, so work to overthrow them all, and know that the solution to all your problems and issues is by the establishment of your state - the righteous Khilafah on the method of Prophethood- with an aware and sincere leadership that understands its responsibility and rules between the citizens with justice and look after you and protects you and leads you to the good in this world and the Hereafter. Here is Hizb ut Tahrir a warner to you, warning you of the West and its nations and of their regional and local tools and their colonial projects. The Hizb delivers the glad tidings to you of the good, glory, justice and lasting tranquility from the Deen and system of Allah.

﴿فَأِيخَذُ الَّذِينَ يُخَالِفُونَ عَنْ أَمْرِهِ أَنْ تُصِيبَهُمْ فِتْنَةٌ أَوْ يُصِيبَهُمْ عَذَابٌ أَلِيمٌ﴾

“So let those beware who dissent from the Prophet's order, lest fitnah strike them or a painful punishment.” [An-Nur: 63]
